

FIRE CHIEF™ FC1000E

TAX CREDIT QUALIFIED!

FIRE CHIEF™ FC1000E Wood Burning Furnace

OVERVIEW OF TAX CREDIT

Effective Dates: Product qualifying under this tax credit must be purchased and installed between January 1, 2021 and December 31, 2023. See the table below. Consumers may claim a percentage of the purchase and installation cost, which includes installation labor, as a tax credit.

DATES	CREDIT AMOUNT
01/2021 THRU 12/2022	26%
01/2023 THRU 12/2023	22%

FC1000E Furnace Specifications

Model	Firebox Capacity (Cubic Feet)	Recommended Square Footage ⁴	Maximum Peak Input (BTU) ¹	Maximum Peak Output (BTU) ²	Average Output Capacity (BTU) ³	Tested Emissions	Efficiency ⁵	Maximum Burn Times
FC1000E	3.4 CF	1,000 - 2,000 SF	221,000	152,000	46,435	1.07 g/hr	79%	Up to 9 Hours

¹ Actual laboratory test results for 1000E series.

² Based upon tested efficiency at Maximum Peak Input. BTU Output cycles dependent upon the amount, frequency, and quality of wood. It is not a continuous, steady output.

³ Actual laboratory test results for 1000E series.

⁴ Use to qualify model which may meet projected heating demand. Actual performance will be dependent upon field variables and estimate is based upon a high performance home located in Heating Zone 4 USA. Please reference www.inchcalculator.com/calculate-many-btus-needed-heat-home.

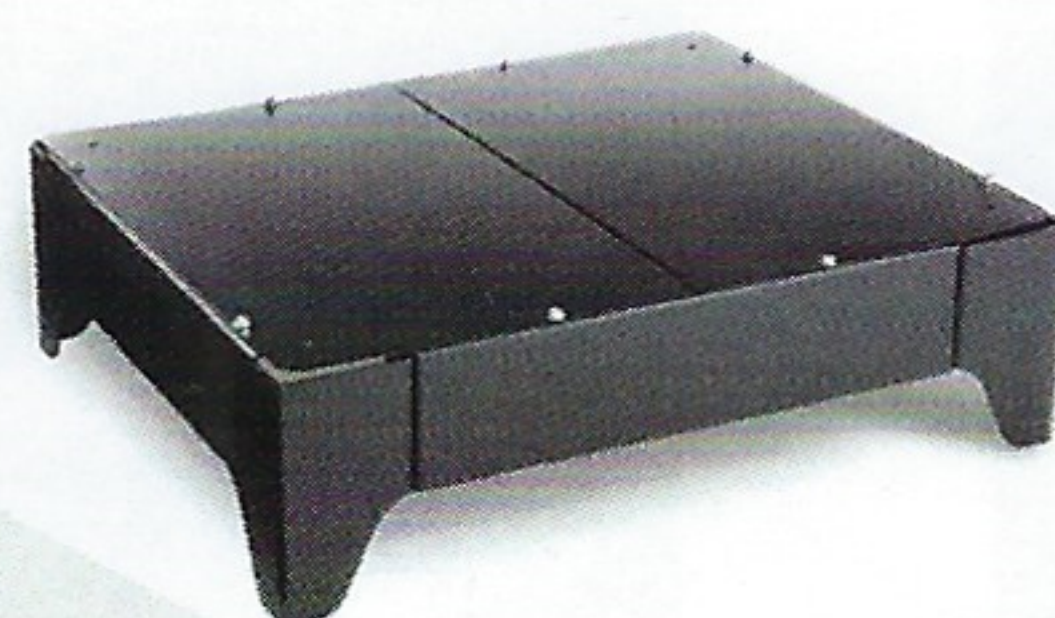

⁵ Based upon CSA B415.1 Stack Loss Heat Transfer Efficiency (HHV).

FC1000E Furnace Features

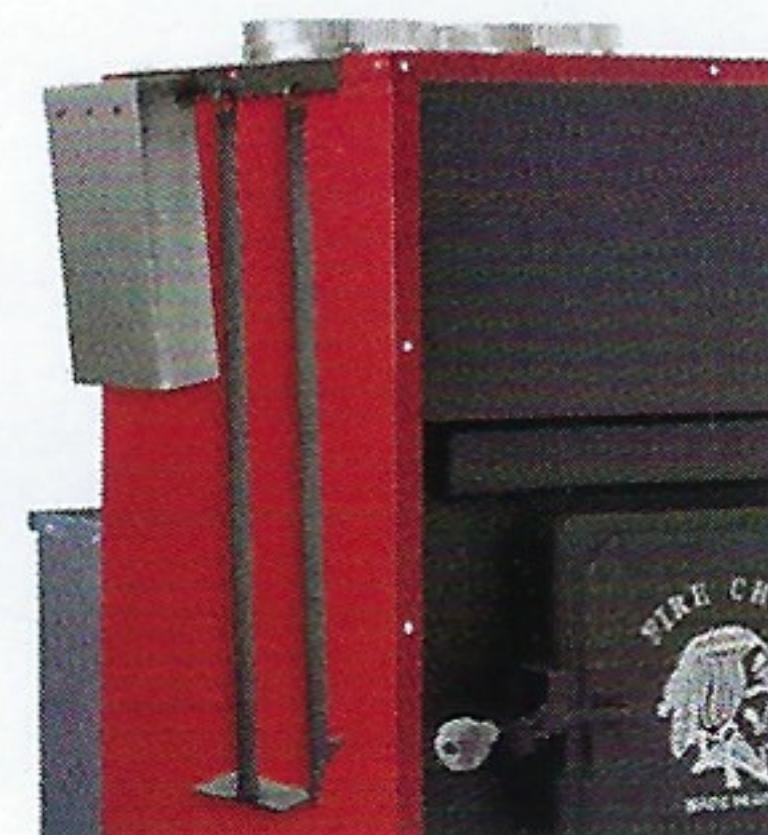

- Overall Installed Dimensions: H: 42" W: 26" D: 45 1/2"
- Digital Thermostat with Draft Induction Fan
- Pre-Wired Electrical Components
- Stainless Steel Lined Firebox
- Tested Emissions: 0.14 lbs./Million BTU
- Low Clearance to Combustibles: Side: 6" Back: 12"
- Filter Box Included: 20" x 20"
- Requires 6" Chimney
- Limited Lifetime Firebox & Grate Warranty
- 2-Year Blower & 1-Year Electrical Components Warranty
- Toll Free Customer Support
- Installation Video Available: www.hy-c.com

FC1000E Furnace Accessories

- Optional Stand (WAF-STAND)
- Wood Furnace Tool Set (WAF-TK)
